## ALTERNATIVE DATES

Location	Date	Spaces
Billingshurst	10 May 2021	2 Available
Leeds	10 May 2021	5 Available
Ashton in Makerfield, Wigan	10 May 2021	1 Available
Cannock	17 May 2021	3 Available

## Course Summary

There are 9 units for Operatives and a separate certificate is issued for each. In addition, various combinations of the units will lead to a full Street Works qualification, for which a Street Works Qualification Register (SWQR) Card will be awarded. Delegates should provide a passport photograph on the day of training for production of SWQR Cards. Delegates should inform their trainer if they have any serious health issues, physical problems, special considerations or are taking any medication, which may create difficulties in undertaking elements of this training course.

## Who Attends

The New Roads and Street Works training programme is designed for Operatives who carry out excavation, backfill and reinstatement of various materials for undertaking street works.

## The Aim

This NRSWA training course provides delegates with the skills and knowledge to perform operative duties to the standards prescribed by City and Guilds in-line with the current New Roads and Street Works (NRSWA) Act, in order to safeguard themselves and others.

## Knowledge

By the end of the NRSWA training course delegates will be able to: Summarise the requirements of the New Roads and Street Works (NRSW) Act. Select appropriate personal protective and safety equipment as required to carry out street works activities. Perform duties of each unit and/or qualification as prescribed by City and Guilds standards in-line with current legislation, and ACOP where applicable. Provide a safe working environment for themselves and others.

## Course content

The NRSWA training course content includes: > Location of underground apparatus. > Signing, lighting and guarding.  
> Excavation in the highway. > Reinstatement of compaction and backfill materials. > Reinstatement of sub-base and road base non-bituminous materials. > Reinstatement of cold-lay bituminous materials. > Reinstatement of hot-lay bituminous materials. > Reinstatement of concrete slabs. > Reinstatement of modular surfaces and concrete footways.

## **Methods**

A high proportion of group exercises with continuous oral and practical assessments, supplemented with video and classroom based tutorials. A NRSWA training group may contain a mix of both Operatives and Supervisors. Sessions will be varied within the overall framework to allow the most effective development of the candidate.
