Course Summary

> All courses will be delivered in English in accordance with scheme rules. > Delegates must, therefore, be competent in English at the level required to do their job before their course commences. > Interpreters and translators are not permitted for any part of the course qualification or examinationAssessment > The examination paper is compulsory and consists of 25 questions, selected by CITB, covering all aspects of the course. > The examination will be carried out using an online examination tool (Classmarker or Microsoft Forms) and will be subject to online video invigilation. > Identification must be checked prior to the examination > During the examination, the trainer may invigilate a maximum of 5 delegates. If a course is run with more than 5 delegates, 2 examination sessions will be conducted > Each delegate must show the invigilator that they are alone in the room and must be visible via the video at all times > The examination pass mark is 80% (24 out of 30). > The paper consists of 22 multiple choice questions and three short written questions. There are four safety critical questions in each exam paper. The delegate must answer all four of these questions correctly to pass the exam. > The multiple-choice questions are worth 1 point each, whereas written questions can score between 1-3 marks. > We suggest you share this information with the delegates prior to attending the courseAssessment Re-sitsThere is an option for an examination to be re-taken if the delegate fails on the first attempt. When this is taken will be at the discretion of the training and Citrus Training. > Where a delegate has achieved between 70%–77% (21, 22 or 23 out of 30) in the examination or has achieved the 80% pass rate but failed the safety critical questions, the delegate may re-sit the examination. This can either be on the same day or by resitting the exam by attending another course on the final day within a 90-day period (the delegate is not obliged to re-do the day’s course) > When a delegate scores less than 67% (20 correct answers out of 30) in the final examination, the delegate must attend the full SSSTS course again before they can re-sit the examination.

Who Attends

The SSSTS refresher course is for any delegate who has attended the two day Site Supervisor Safety Training Scheme (SSSTS) Course and can provide a current proof of successful attendance. If a delegate cannot provide a copy of their certificate, the online card checker can be used to establish if a delegate currently holds a valid SSSTS certificate. Pre-Requisites: > The minimum entry requirement is a good understanding of spoken and written English > Photo ID will have to be provided by the delegate.

The Aim

The two-day Site Supervisor Safety Training Scheme Refresher (SSR) course aims to: > Improve awareness of recent developments in construction, legislation and health, safety, welfare and environmental issues. > Identify measures that will assist the practical implementation of responsibilities established by new legislation and new working practices.

Knowledge

The course requires 7 hours of tuition including an exam. Due to the constraints of remote video delivery the course will be delivered over 2 days. Delegates are required to complete the full course to be eligible for certification. > Delegates are required to show original photographic identification via video link prior to the commencement of the course, the delegate must be notified of this requirement prior to attendance. > Delegates who do not complete the full tuition time, and pass the end of course examination will not be issued with a certificate.

Course content

The SSSTS refresher course (CITB) content includes: > Legislation, ACOP updates with discussions on impact and practical aspects of compliance. > Overview of proposed/impending legislation. > Accident statistics, costs, causes, management responsibilities/methods in prevention. > HSE's current focus on construction activities. > Safety management systems, policies, plans and performance measuring. > Management of Contractors. > Communication and consultation aspects, effective use of toolbox talks' and site inductions' > Behavioural science including awareness of human error, stress and prevention > Syndicate exercises: > Prevention of accidents > Motivating safety behaviour > Planning for health and safety in relation to fire safety, working at height, manual handling, and movement of people within the context of a project.

Methods

The course requires 7 hours of tuition including an exam. Delegates are required to complete the full course to be eligible for certification. > Delegates are required to show original photographic identification via video link prior to the commencement of the course, the delegate must be notified of this requirement prior to attendance. > Delegates who do not complete the full tuition time, and pass the end of course examination will not be issued with a certificate.
